The bulk buy of 64 nucs has now been completed for the 'Silver Bee Programme'. These have been painted and catalogued. Each has been given a number and QR code which takes you to our website. A percentage of those that have signed up to the programme have been allocated two nucs ready for use and we are waiting for the others participants to respond to an email that was sent out. We also posted out an 'invitation link' to all participants inviting them to join the Whats App Group that is now up and running We feel this is going to be an important communication conduit for all involved.
